

Stainless Steel Rolling Shutters

Presently carbon steel is being used for the manufacture of rolling shutters in our country. Salem Steel Plant has developed Stainless Steel Shutters in 430 grade (Dull finish) considering the advantages of the material of construction:

- ❖ **Excellent corrosion resistance.**
- ❖ **Excellent wear resistance.**
- ❖ **High strength to weight ratio.**
- ❖ **Long life.**
- ❖ **Maintenance free.**
- ❖ **Periodic painting can be dispensed.**
- ❖ **Cost effective.**
- ❖ **Available in designed finishes.**
- ❖ **Environment friendly.**
- ❖ **Tamper/Vandal proof.**
- ❖ **Appealing aesthetics.**
